

Minnesota State Demographic Center

Major Demographic Trends Transforming MN & The Minnetonka Area

Presentation to the Minnetonka Family Collaborative

**Andi Egbert, Assistant Director,
MN State Demographic Center
January 29, 2015 | Minnetonka, MN**

Website: mn.gov/demography | Twitter: @MN_StateData

What is the role of the MN State Demographic Center?

- Serve as a liaison to the Census Bureau and assist with the decennial census counts
- Create MN population estimates and projections
- Analyze, interpret and distribute data from the state, U.S. Census Bureau and other sources
- Offer data and technical assistance to legislators, all levels of government, organizations and citizens across the state
- Monitor trends and help MN to make data-informed decisions

QUIZ QUESTION

Where do 1 in 5 of Minnesota's residents live?

- A. The 7-county
Twin Cities metro
- B. Otter Tail County
- C. Hennepin County

Counties are not comparable units for measurement!

5 largest MN counties in 2014:

1. **Hennepin (1.2M residents, 22% of state)**
2. Ramsey (530K, 10% of state)
3. Dakota (412K, 8% of state)
4. Anoka (343K, 6% of state)
5. Washington (249K, 5% of state)

■ Everywhere else (2.7M, 50% of state)

-Wright County (nearly 130,000, or 2.4% of state,
10th largest)

+ County highlights: Population change between 2010 and 2014

- Minnesota has 87 counties ranging in size from 3,400 residents (Traverse) to 1.2 million residents (Hennepin).
- There are 19 counties with more than 50,000 residents and 10 counties with populations exceeding 100,000.
- There are 19 counties with fewer than 10,000 residents and 4 counties with fewer than 5,000 residents.
- Hennepin and Ramsey counties led all counties with population increases of about 58,000 and 21,000, respectively
- 16 counties added 1,000+ residents.
- 46 counties have lost population since 2010.

Minnesota State Demographic Center
© Center for Rural Policy and Development

Enrollment gains each year since 2011 in Minnetonka district

- Students of Color now represent 13% of students (school year ending 2015)
- About 1/4th of students are open-enrolled from out of district

Diversity in Minnetonka Public School District (latest data)

Minnetonka Public School District

Demographics

- White: 87%
- Asian: 7%
- Hispanic: 3%
- Black: 3%
- American Indian: 1%

Poverty in Minnetonka Public Schools area

Free & Reduced Lunch enrollment is often used as a proxy for poverty

- Families receiving MFIP or SNAP, or containing a foster child, are automatically eligible
- Free lunch income eligibility guideline = Below 130% of official poverty
- Reduced lunch income eligibility guideline = 131-185% of official poverty
- No “asset” test – only income-based eligibility

Income-eligible families for FRL in 2015-2016 school year

Household size	Gross annual earnings below
2	\$29,471
3	\$37,167
4	\$44,863
5	\$52,559

Free and reduced lunch enrolled by grade, 2014-15, MPS

Minnetonka (7%) and Orono (7%) are the two non-charter districts with the lowest percentage of students enrolled in Free or Reduced Lunch

Free and reduced enrollment in nearby districts, 2014-15

SELECT NEARBY DISTRICTS	FRL students	FRL % of total
ST. PAUL PUBLIC SCHOOL DISTRICT	26,906	73%
RICHFIELD PUBLIC SCHOOL DISTRICT	2,853	66%
MINNEAPOLIS PUBLIC SCHOOL DIST.	22,721	64%
INVER GROVE HEIGHTS SCHOOLS	1,486	39%
HOPKINS PUBLIC SCHOOL DISTRICT	2,545	37%
ROSEMOUNT-APPLE VALLEY-EAGAN	6,311	23%
EDEN PRAIRIE PUBLIC SCHOOL DISTRICT	1,872	21%
WAYZATA PUBLIC SCHOOL DISTRICT	1,324	12%
EDINA PUBLIC SCHOOL DISTRICT	690	8%
MINNETONKA PUBLIC SCHOOL DISTRICT	712	7%

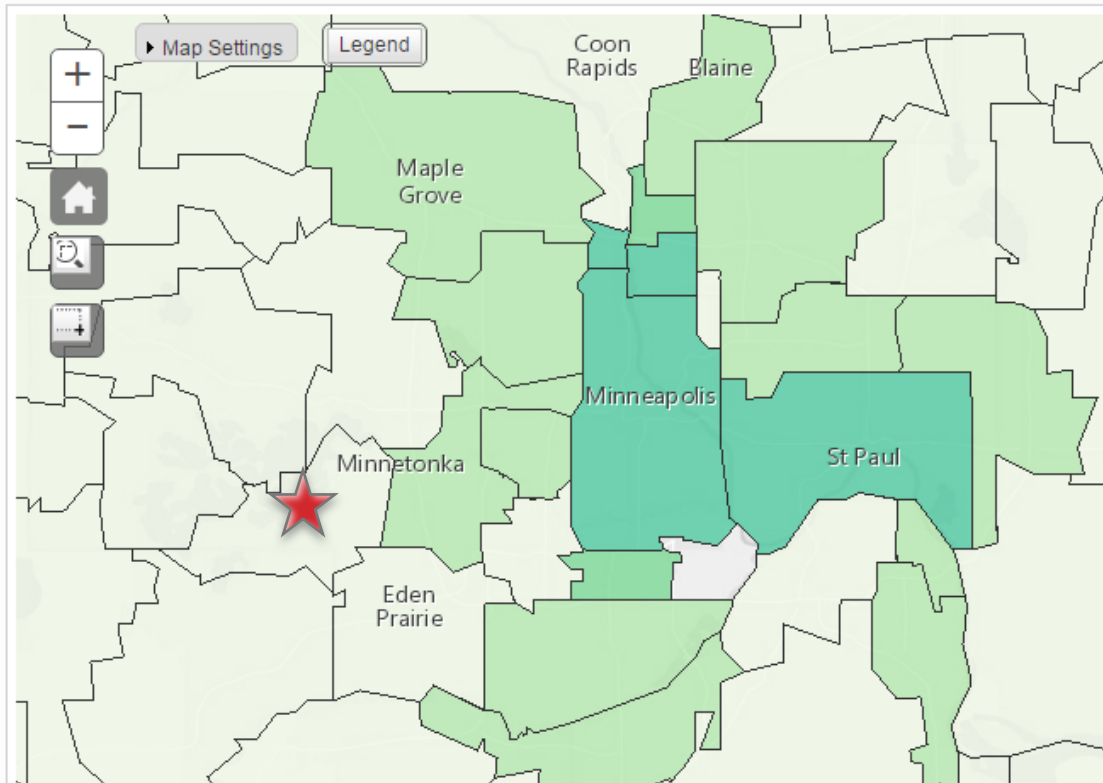

Understanding official poverty (<100% poverty)

- Official poverty guidelines for 2013:
 - 2 parents, 2 children = \$23,624
 - 1 parent, 2 children = \$18,769
- Link to all poverty thresholds by family composition:
<https://www.census.gov/hhes/www/poverty/data/threshld/>

Poverty rates of 5- to 17-year-olds by school district boundaries, 2014

2014 Ages 5 to 17 in Families in Poverty

- ★ **Minnetonka: 3.8%**
- **St. Louis Park: 11.5%**
- **Hopkins: 10.3%**
- **Edina: 3.6%**
- **Eden Prairie: 7.3%**
- **Eastern Carver Co.: 4.9%**
- **Westonka: 6.5%**
- **Orono: 5.2%**
- **Wayzata: 5.8%**
- **Minneapolis: 29.0%**

About 8,800 kids; about 330 in “official” poverty in MPS boundaries

School-Age Poverty Trend, 1999-2014 for MPS, MN and US

- Poverty peaked at 5.9% in 2010 in MPS

Child poverty across Minnesota

- Even deep into economic recovery, child poverty all too common in MN

Figure 22: Number and Percent of Children Under 18 Living in Poverty

Aging trends

QUIZ QUESTION:

Which places are the “oldest”?

The median age of **Minnesota** is **37**.

The median age of **Chanhassen** is **39**.

The median age of **Deephaven** is **45**.

The median age of **Hopkins** is **33**.

The median age of **Eden Prairie** is **38**.

The median age of **Excelsior** is **43**.

The median age of **Minnetonka** is **45**.

The median age of **Shorewood** is **46**.

The median age of **Tonka Bay** is **50**.

The median age of **Victoria** is **37**.

The median age of **Woodland** is **52**.

Age distribution of 10 communities associated with MPS

Note: Sums the entire populations by age in the following 10 communities: Chanhassen, Deephaven, Eden Prairie, Excelsior, Greenwood, Minnetonka, Shorewood, Tonka Bay, Victoria & Woodland. Does not remove populations outside the district boundaries.

+ How many additional “older adults” will we gain during this decade?

Change in older adults, age 65+ (Thousands)

+ This decade and next: *Unprecedented* increases in MN's 65+ population

Change in older adults, age 65+ (in thousands)

QUIZ QUESTION:

What event is predicted to happen in 2020 that has never before happened in the history of our state?

- A. The Vikings will win the Super Bowl
- B. MN will have more immigrants than U.S.-born residents
- C. MN will have more 65+ residents than school-age children, 5-17

For the first time in MN history: More 65+ than school-age by 2020

By 2030, more than 1 in 5 Minnesotans will be 65+, including all Baby Boomers

An “older Minnesota” is here to stay, not a near-term challenge

Aging: Assets of our older population

- Minnesota's older adults are healthier, living longer, and working longer than prior generations
 - Life expectancy for Minnesotans age 65 now is 20.1 more years (15.6 years in good health)
 - Minnesota's Boomers and older adults volunteer in record numbers, strengthening our communities in countless ways
 - Opportunities to mentor in business and educational settings

Challenges related to our aging population

- Will we have or create sufficient **infrastructure** for more transportation, caregiving, health care, and social support needs, as **health challenges and disabilities increase**, especially when children live far away?
- Will we be able to **finance needed services**, especially long-term care? Private and public medical expenses will increase considerably.
- Will we have the workers to form a strong, skilled, highly **productive labor force** as the Boomers retire — for economic growth, tax revenues for needed services, and maintaining a high quality of life in MN?

Workforce Considerations

Change in MN age groups between 2015 and 2030 (percent)

Change in MN age groups between 2015 and 2030 (people)

Total 25- to 64-year-olds in MN will dip by about 100,000 individuals

Ratio of jobs to job seekers is now nearly 1:1

Figure 1: Minnesota Job Vacancies and Unemployed Workers, 2nd Quarter 2001 to 2nd Quarter 2015

Projected job growth and projected labor force growth

Opportunities to impact labor force's quality and size

- Grow your own (train, retrain, and retain your own)
- Attract new workers (domestic, int'l migration)
- Better alignment of preparation (& retooling)
- Pull (or keep) additional folks in the labor force:
 - Older workers
 - People with disabilities
 - Parents, especially mothers
 - Discouraged workers
 - People with less education/skills that align poorly with available jobs

Migration & Diversity

See our “Minnesota on the Move” special report on migration –
<http://mn.gov/admin/images/mn-on-the-move-migration-report-msdc-jan2015.pdf>

Populations of Color now total 1 million in MN, 19% of the population

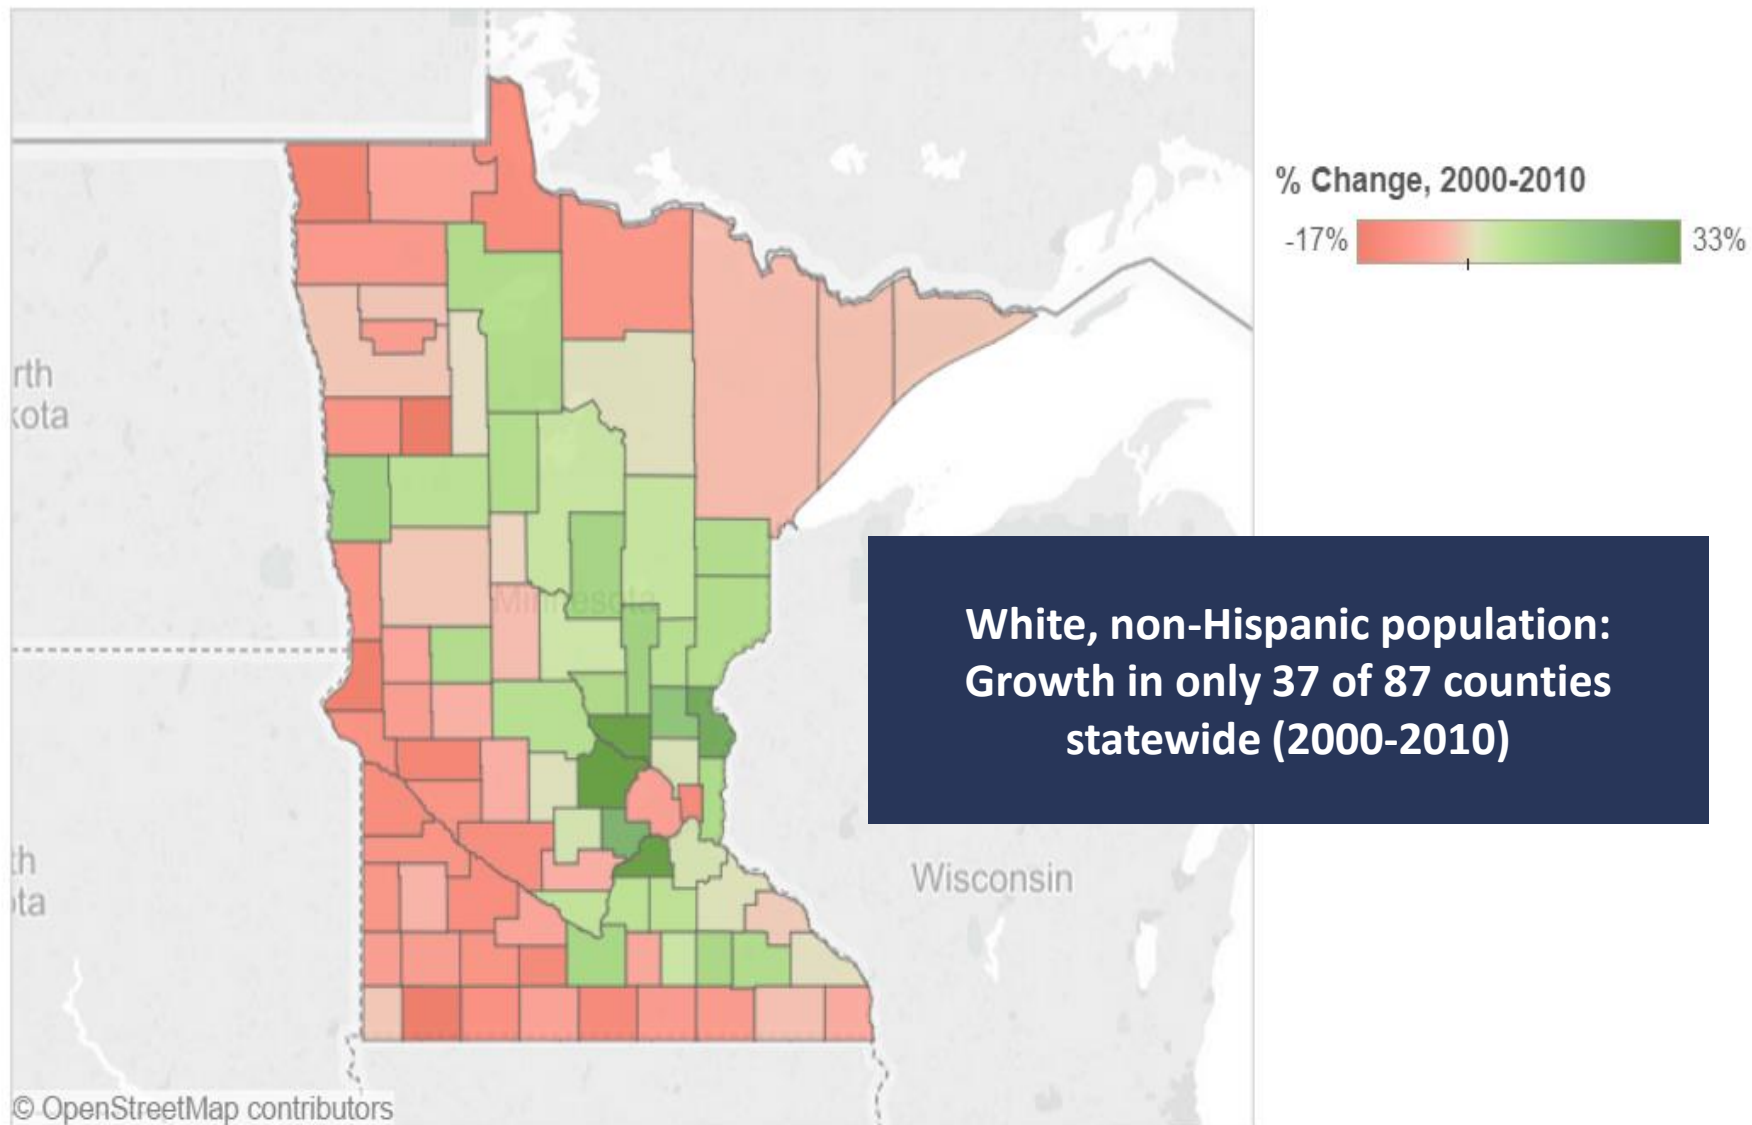

Populations of color in Minnesota

Populations of Color are driving growth in MN & US (shown since 2010)

MN today by race/ethnicity (Hispanics removed from all other race groups)

Population by racial and ethnic group

- 82% White
- 6% Black
- 5% Hispanic
- 5% Asian
- 2% Multiracial
- 1% American Indian

Minnesota's population by age and race groups

An increasing share of Minnesota's babies are children of Color

Figure 4: Total Births by Race of Mother, Minnesota, 1990-2012

Source: Minnesota Department of Health, Vital Statistics; U.S. Census Bureau, Population Estimates.

+ By late 1800s, German, Norwegian and Swedish immigrants began to arrive in MN in great numbers

MN foreign-born populations: Largest groups by country of birth, 2013

* Hmong represented

Percent of MN young people who are “children of immigrants”

Under age 20, it's 1 in 6

Under age 5, it's 1 in 5

“Children of immigrants” are foreign-born themselves, or have one or two foreign-born parents

Immigrant presence reflected in home languages in MPS

**Students by Primary Home Language,
Minnetonka Public Schools, 2014-2015**

**All data in the report refer to the annual average during years 2010 to 2014.
Report is available off our homepage at mn.gov/demography or direct at
<http://bit.ly/1OKVT5I>**

Cultural Groups, by Size

Cultural Group	Percent	People
White	82.1%	4,417,700
African-American	4.0%	216,700
Mexican	3.4%	184,100
Hmong	1.2%	66,600
Somali	0.9%	46,300
Asian Indian	0.8%	42,800
Ojibwe	0.6%	33,500
Vietnamese	0.6%	29,800
Chinese	0.5%	29,400
Korean	0.4%	22,500
Ethiopian	0.3%	17,000
Filipino	0.3%	14,100
Liberian	0.3%	14,000
Puerto Rican	0.2%	12,500
Lao	0.2%	12,100
Russian	0.2%	9,900
Dakota	0.1%	6,100
<i>Not in above group</i>	3.9%	207,200
All Minnesotans	100%	5,382,400

Hmong, African-American, Somali & Mexican Minnesotans Are Young

Median Age of Minnesotans,
2010-2014 average

MN: Largest growth among Asian, Black and Hispanic groups by 2030

Source: Minnesota State Demographic Center projections.

Which MN kids are leaving high school in 4 years with a diploma? (2014 data)

- 81% of all public high school students
- 51% of American Indian students
- 82% of Asian students
- 63% of Hispanic students
- 60% of Black students
- 86% of White students

Two fastest growing demographic groups in MN

MPS has a 93% grad rate with 5% continuing

White working-age losses, but growth in all other groups since 2010

Change in MN population 15-64, 2010-2014

Alignment of training/education to labor force needs is crucial

- Data outcomes for all fields of study are on DEED's website at under Graduate Employment Outcomes tool: <http://mn.gov/deed/data/data-tools/graduate-employment-outcomes/>
- If wage and employment rates are the outcome of interaction between supply and demand, they tells which fields of study are in demand and which are not
- These data allow students/parents/school staff to steer into areas with better opportunities

+ Take-away thoughts for those contemplating these trends

- All areas of the state will feel the effects of an aging population. **Health care and long-term care** will become cost-drivers of public budgets. How will we balance this with other public needs?
- However, older adults transitioning out the workforce will **positively shape our communities** with volunteerism, mentoring and advancing their own solutions to the challenges of aging.
- **As Baby Boomers retire, a tightening labor force** will create new opportunities for workers, but will place strain on employers. The search for skilled hands and minds will intensify (here and across much of the globe). Fewer workers relative to older adults puts a premium on **developing, retaining, and attracting skilled workers and business leaders** — to fuel continued economic growth.
- Minnesota's **communities, workplaces, and markets for business will grow more diverse** in the decades to come. The success of populations of Color is essential for our state's overall success—and present disparities are large.

And Finally...

Community leaders will need
to be brave, creative,
collaborative, and adaptive in
responding to these
demographic changes.

You are part of the solution!
